The Company is a public limited company and is listed on the Nigerian Exchange Group.

### 1.2 Securities Trading Policy

In compliance with Rule 17.15 Disclosure of Dealings in Issuers' Shares, Rulebook of the Exchange 2015 (Issuers Rule) UPDC Plc maintains effective Security Trading Policy which guides Directors, Audit Committee members, employees and all individuals categorized as insiders as to their dealing in the Company's shares. The Policy is regularly reviewed and updated by the Board. The Company has made specific inquiries of all the directors and other insiders and is not aware of any infringement.

### 1.3 Management's Assessment of Internal Controls

The management of UPDC Plc is responsible for establishing and maintaining adequate internal control over financial reporting. UPDC's internal control system was designed to provide reasonable assurance to the Company's management and board of directors regarding the preparation and fair representation of published financial statements.

UPDC's management assessed the effectiveness of the Company's internal controls within the reporting period. Based on our assessment, we believe that as of 31 December 2023, the Company's internal controls are effective. We will continue to work on further strengthening this position.

### 2. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

### 2.1 Basis of preparation

The financial statements have been prepared in accordance with IAS 34. The financial statements have been prepared on a historical cost basis except for Investment Properties, held for trading and available for sale financial instruments which are carried at fair value.

(All amounts are in Naira thousands unless otherwise stated)

### 2.2 Accounting Policies

The accounting policies adopted are consistent with those for the year ended 31 December, 2023.

### 2.3 Estimates

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed interim financial statements, the significant judgements made by management in applying the group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended 31 December 2023.

### 3 Financial Risk Management

The group's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the group's financial performance.

This interim financial statements do not include all financial risk management information and disclosures required in the annual financial statements; they should be read in conjunction with the Company's annual financial statements as at 31 December 2023. There have been no changes in the risk management structure since year end or in any risk management policy.

### **UPDC PLC**

# Notes to the Consolidated and Separate Financial Statements - Continued For the period ended 31 March 2024

### 2 Summary of material accounting policies - Continued

### 2.2 Consolidation

### (a) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group and the Company applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group and the Company. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognised amounts of acquiree's identifiable net assets.

Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is re-measured to fair value at the acquisition date; any gains or losses arising from such re-measurement are recognised in profit or loss.

Any contingent consideration to be transferred by the Group and the Company is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in accordance with IFRS 9 either in profit or loss or as a change to other comprehensive income. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is accounted for within equity.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recorded as goodwill. If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the Profit or Loss.

Inter-company transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated when necessary amounts reported by subsidiaries have been adjusted to conform with the Group's accounting policies.

### (b) Changes in ownership interests in subsidiaries without change of control

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

### (c) Disposal of subsidiaries

When the Group ceases to have control any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

### (d) Associates and joint ventures

Associates are all entities over which the Group and the Company has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting. Under the equity method, the investment is initially recognised at cost, and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition. The Group and the Company's investment in associates includes goodwill identified on acquisition.

### 2 Summary of material accounting policies - Continued

### 2.2 Consolidation - Continued

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit or loss where appropriate.

The Group and the Company's share of post-acquisition profit or loss is recognised in profit or loss, and its share of post-acquisition movements in other comprehensive income is recognised in other comprehensive income with a corresponding adjustment to the carrying amount of the investment. When the Group and the Company's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group and the Company does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case, the Group and the Company calculate the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount adjacent to 'share of profit' (loss) of an associate' in the Profit or Loss.

Profits and losses resulting from upstream and downstream transactions between the Group and its associate are recognised in the Group's financial statements only to the extent of unrelated investor's interests in the associates. Unrealised losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group and the Company.

Dilution gains and losses arising on investments in associates are recognised in the Profit or Loss.

### (e) Joint arrangements

The Group has applied IFRS 11 to all joint arrangements as of 1 January 2013. Under IFRS 11 investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations of each investor. The Group has assessed the nature of its joint arrangements and determined them to be both joint operations and joint ventures. Joint ventures are accounted for using the equity method. Under the equity method of accounting, interests in joint ventures are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses and movements in other comprehensive income. When the Group's share of losses in a joint venture equals or exceeds its interests in the joint ventures (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint ventures), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint ventures.

The Group and the Company account for joint operation by treating the operation as its own operations by recognising its assets, including its share of any assets held jointly, its liabilities, including its share of any liabilities held jointly, its revenue from the sale of the output by the joint operation, its share of revenue from the sale of the output by the joint operation, its expenses, including its share of any expenses incurred jointly.

Unrealised gains on transactions between the Group and its joint ventures are eliminated to the extent of the Group's interest in the joint ventures. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of the joint ventures have been changed where necessary to ensure consistency with the policies adopted by the Group and the Company.

### 2.3 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Executive Committee that makes strategic decisions.

### 2 Summary of material accounting policies - Continued

### 2.4 Foreign currency translation

### (a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Naira (N), which is the parent and separate's functional currency.

### (b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuations where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in profit or loss within 'Administrative expenses'.

Changes in the fair value of monetary securities denominated in foreign currency classified as fair value through other comprehensive income are analysed between translation differences resulting from changes in the amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in amortised cost are recognised in profit or loss, and other changes in carrying amount are recognised in other comprehensive income.

Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss. Translation differences on non-monetary financial assets, such as equities classified as fair value through other income, are included in other comprehensive income.

### (c) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (a) assets and liabilities for each item of Statement of Financial Position presented are translated at the closing rate at the reporting date;
- (b) income and expenses for each Profit or Loss item are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- (c) all resulting exchange differences are recognised in other comprehensive income.

### 4. Segment Analysis

The chief operating decision-maker has been identified as the Executive Committee (Exco). The Exco reviews the Company's internal reporting in order to assess performance and allocate resources.

Nigeria is the Company's primary geographical segment as the operations of the Company are entirely carried out in Nigeria. As at 31 March 2023, UPDC Plc's operations comprised two main business segments which are Property Development, Sales & Management and Hospitality Services.

**Property Development, Sales & Management** - UPDC Plc's main business is the acquisition, development, sales and management of high quality serviced commercial and residential properties in the Highbrow and Middle Income segments of the real estate market in Nigeria. The Company approaches property planning from the customers' perspective to create comfortable living/working environments. UPDC Facility Management Limited is a subsidiary of UPDC Plc. The Company provides facilities management services to residential and commercial properties in Nigeria.

**Hospitality Services** - UPDC Hotels Limited, the company's subsidiary is in the hospitality industry and leverages significantly on the success of its principal promoter UPDC Plc. The hotel provides services such as sale of rooms, conference halls as well as food & beverages.

The following measures of performance are reviewed by the Exco:

- Revenue to third parties
- Earnings before interest and tax
- Profit before tax
- Net current assets
- Property, plant and equipment

### Nature of investment in Joint ventures:

| Name                            | Project             | Country of incorporation | Nature of relationship | Measurement method |
|---------------------------------|---------------------|--------------------------|------------------------|--------------------|
| First Festival Mall Ltd.        | Festival Mall       | Nigeria                  | Joint venture          | Equity             |
| First Restoration Dev. Coy Ltd. | Olive Court         | Nigeria                  | Joint venture          | Equity             |
| Pinnacle Apartment Dev. Ltd.    | Pinnacle Apartments | Nigeria                  | Joint venture          | Equity             |
| Calabar Golf Estate Ltd.        | Golf Estate         | Nigeria                  | Joint venture          | Equity             |
| UPDC Metro City Ltd.            | Metrocity           | Nigeria                  | Joint venture          | Equity             |
| Transit Village*                | Transit Village     | Nigeria                  | Joint venture          | Equity             |

All joint ventures are primarily set up for projects as stated above. The investments in Joint Venture were measured at cost in the separate financial statements.

### 15. Equity instrument at fair value through other comprehensive income

As at 30 June 2023, UPDC held 133,413,475 units, representing 5% of the total issued REIT units. This is in compliance with Section 532(z) of the SEC Rules and Regulations (as amended) that requires promoters of real estate investment schemes to subscribe to a minimum of 5% of the registered units of the scheme at inception and hold such units throughout the life of the real estate investment scheme. The fair value changes is as a result of the difference in share price from prior year of N6.4 to N5.15 per unit in current year.
